Part 2 of Our Interview With Brother and Sister Design Duo - Nicole & Philip DeLeon!

As promised, here is the second half of our interview with Nicole & Philip DeLeon of Alexander Henry Fabrics!

Do you do a lot of sewing personally? Or do you just enjoy designing?

If yes...what kinds of things do you sew with your fabrics?

Phillip DeLeon: I try! I love felt and I've sewn a few puppets in my day and some not-so-successful clothing. Now that I have twin daughters I plan on experimenting on them. Hopefully smaller is easier!

Nicole DeLeon: I love to sew and never have enough time to get to all of my projects. I have a dresser filled with vintage items to fix, and then I have new projects as well. A few years ago I enjoyed recreating Marni-styled blouses and skirts in our fabrics on my machine. Now I mostly sew for my daughter; I can make her a pair of pants in 35 minutes which is all the time I've got lately! I love french seams. Napkins are also one of my favorite ways to enjoy seeing the designs I like most on a daily basis.

What inspired you to start designing fabrics?

Nicole: Our father was the sole designer of the AH collection when we got started. We both did some fun surf-inspired designs in high school. One of Phillip's first designs was worn on a model in GQ in the 80's! We still have that issue. What a kick. Textiles have been a part of our lives forever. It is a tactile, lovely medium that we work with every day. What a joy!

Phillip: We've drawn and made art since I can remember. My father started this collection and he was a major inspiration. Nicole and I were excited to take our abilities and apply it to this medium. We came to love designing fabric more than we ever imagined we would.

What does your day usually entail?

Nicole: Up early! Shower. Tea! "Momma!" Diaper. Get dressed. Dress Baby. Make Baby lunch. Out the door. Music in the car. Hers and mine. Ahhhh. Work. Look. Paint. "Momma!" Paint. Talk. Listen to music. Talk. Paint. Home. Dinner. "Poppa!" Night-night for Baby. Night-night for Momma & Papa.

Phillip: Diapers. Snuggles. Then off to work. Convening with Nicole and checking on the progress of projects in the studio is one of my favorite times of the day. Then there's settling down to some painting, listening to music that inspires. There's reviewing new strike-offs from our printers with our dad, who continues to be the last word in terms of how each design is printed and colored. I wonder what's for lunch. Then when that's decided, I start wondering what's for dinner...

What advice do you have for up and coming fabric designers?

Phillip: Know the past. Be familiar with what's been done. It will inspire. Don't worry about end-use. LOVE WHAT YOU CREATE.

(continued on pg. 2)

Another amazing fabric designed by Nicole & Philip for Alexander Henry.

(continued from pg. 1)

Nicole: Stay in touch with the original process. Fabric is organic. A computer is not.

Alexander Henry fabrics really has unique designs, what makes your designs different from all of the other textile designers?

Nicole: We designed them!

Phillip: They're made by us. And we rock. (Laughs)

CRAFTY How-To: DRESS UP YOUR FRONT DOOR - & YOURSELF TOO - WITH A FURRY MONSTER WREATH & SPARKLY DEVIL HORNS!

What You Need:

- 3/4 yd. fun fur
- Ping pong balls
- Paint pens
- 1 Bag polyester stuffing
- Glue gun (or sewing machine)

How to Make It:

Begin by tracing two wreath shapes on the back of the fun fur and cut out. Cut slits about 1 1/4 inches long where you want the eyes. Push a ping pong ball through the slit, then ring with glue. Glue the two layers of fur together and stuff with poly stuffing. Use glue to close the hole in the wreath. Sew a ribbon to the back for hanging. Use a black paint pen to draw eyes on the ping pong balls. You're done!

Completed wreath - ready to hang!

What You Need:

- Air-dry craft clay
- White glue (or Modge Podge)
- Glitter
- Small plastic bowls or dishes
- Paintbrushes
- Toothpicks
- Elastic cord, large darning needle

How to Make It:

Measure an equal amount of clay for each horn. By hand, roll clay into 2 balls, then form into cones. Make the ends pointy and bend them in, forming horns. Stand horns upon the flat ends, then insert a toothpick through each base, to allow for the elastic cord (this is what keeps them on your head!). Allow horns to dry for 2-3 days. After they're set (about 1 day), rotate the toothpicks daily. Pour glue into a dish. Holding the horn by the toothpick, paint the horn with glue, then dip it into glitter. Let dry, and then add another coat of glue and glitter to make sure the horn is extra sparkly. Once drying is complete, remove toothpicks. Thread a darning needle with enough elastic to go around your head. Insert threaded needle into horns, pull the elastic through, and tie off the ends. This project was created by **The Devil-Ettes** -"San Francisco's Go-Go Sweethearts"! Check them out at: [devilettes.com](#)

***Variation** - Make these to wear as hair clips! Simply omit adding the holes and glue the completed horns to some metal clips.

Finished horns are ready to go-go!

HAUNTING RECIPES FOR YOUR HALLOWEEN BASH!

We love Halloween, and these recipes are sure to be a hit at your party! Be sure to check the website below for lots more spooky recipes! Recipe Source: <http://www.britta.com/HW/HWr.html>

Creepy Witch's Fingers:

- 1 cup Butter, softened
- 1 cup Icing sugar (powdered sugar)
- 1 Egg
- 1 tsp Almond extract
- 1 tsp Vanilla
- 2- 2/3 cups Flour
- 1 tsp Baking powder*
- 1 tsp Salt
- 3/4 cup Almonds, whole blanched
- 1 Tube red decorator gel (optional, not pictured)

Gross everyone out with these creepy cookies. In bowl, beat together butter, sugar, egg, almond extract and vanilla. Beat in flour, baking soda*, and salt. Cover and refrigerate 30 minutes. Working with one quarter of the dough at a time and keeping remainder refrigerated, roll heaping teaspoonful of dough into finger shape for each cookie. Press almond firmly into 1 end for nail. Squeeze in centre to create knuckle shape. (Accompanying picture showed long rolled shape with bulge at centre for knuckle; you puff it out rather than squeeze it in.) Using paring knife, make slashes in several places to form knuckle.

Place on lightly greased baking sheets; bake in 325F (160C) oven for 20-25 minutes or until pale golden. Let cool for 3 minutes. Lift up almond, squeeze red decorator gel onto nail bed and press almond back in place, so gel oozes out from underneath. You can also make slashes in the finger and fill them with "blood" - or leave plain
(Remove from baking sheets and let cool on racks. Repeat with remaining dough.

Spiderweb Brie En Croute:

- 1 small Brie cheese round
- 1 packaged puff pastry sheet

Wrap the pastry sheet around a small round of Brie cheese, sealing the raw edges together underneath. Use the leftover pastry scraps to add your own design to the top of the Brie, gluing on the pastry with water, milk or egg wash. Cookie cutters might give you inspiration, or roll your scraps into thin ropes and make a spiderweb design. Brush with milk or egg wash for nice browning. Place on greased foil on a cookie sheet and bake in the oven at 400F for 15 minutes, or until crust is golden brown. Serve with a spreader and your preferred assortment of crackers.
